

**MANUFACTURER OF
SWIMMING POOL EQUIPMENT**

ABOUT US

Epico Pools Is Over A Decade Old Business In The Field Of Swimming Pool, Swimming Pool Equipment, Equipment Parts And Accessories. Mr. Raj Sharma Is The Man Behind The Formation Of The Business Operational In The National Capital, Delhi. His Vast Industry Experience And Process Expertise Are Proven To Be Beneficial For The Team In Understanding Of Customers' Demands And Planning The Execution To Meet The Specific Demands. As Trader, Supplier & Manufacturer, We Can Help Customers In Availing Equipment And Accessories For Building New, Renovating The Old, Or Repairing And Maintaining Swimming Pool. The Products One Can Find Here Are Enormous, Starting From Swimming Pool Gratings, Swimming Pool Lights, Swimming Pool Motor Pump, Automatic Swimming Pool Cleaner, Swimming Pool Floor Inlet Nozzle, Swimming Pool Sand Filtration System To Swimming Pool Algae Brush, Sold Under Brand Name "EPICO". Our Company Works In Partnership With EPICO Pools U.A.E, An U.A.E Company Dedicated To Design And Develop Swimming Pool Equipment And Accessories.

Swimming Pool Grating

PRODUCT DETAILS :

Brand	Epico
Material	Plastic
Application	Swimming Pool
Packaging Type	Box
Size	6,8,10,12,14,16,18,20 Inch
Angle	45 deg or 90 deg

DESCRIPTION :

We import to our clients swimming pool grating, which is appreciated in the market for its superior performance and high durability. We offer various; flexible swimming pool overflow grating tiles, in variety of colors, sizes, and styles can be preferred. Gratings are installed on the side water channel all along the pool water surface. These water overflows due to jumping or swimming by the swimmers. Our swimming pool gratings are high on demand among the clients. Moreover, the clients can avail themselves with our swimming pool gratings at very affordable prices.

We are the leading supplier of **swimming pool gratings**. These minimize the overflow of water from a swimming pool. These are fabricated using high-grade plastic or stainless steel with a design which allows easy seepage of water into a drain which is connected to the drainage system of the pool.

Below enlisted are some of the alluring features of our range of gratings:

- Confirm international design and quality
- Anti-slippery and very comfortable.
- Available in different colors
- UV treated
- Made of copolymer
- Available in different sizes and colors
- The injection moulded design gives it a perfect finish.
- Easy to install and easy to clean.
- These can be used in both curved and straight overflows
- Height, width, and length, as per the requirement of the client
- Chemical and corrosion resistance
- Ideal for overflow systems of swimming pools and spas

SWIMMING POOL MOTOR PUMP

PRODUCT DETAILS :

Power Source	Electric
Power	0.5, 0.75,1,1.5, 2, 3 HP
Voltage	220 V
Frequency	50 Hz
Phase	Single
Brand	Epico

DESCRIPTION :

The pool motor pump has a small metal base attached to the round case of the motor. These are also found on above ground swimming pool pumps, which are commonly found on Spa or in the hot tub pumps. We import this kind of products in different range, size and models as per the requirement of the client, and also we distribute this product in all different kinds of ranges as per the standards of the consumers. This swimming pool motor has some features and advantages listed below.

Swimming pool pump can be easily assembled in pump motor basket, which allows twice normal dirt-load before cleaning. The motor takes maximum turnover rate of water is performed at a high rate. We import such kind of motors in all different sizes as per the requirement of the client, and we also distribute them in different ranges as per the competitive market price value.

Features and advantages

- Corrosion protected shell to prevent water contacting motor directly.
- Single thumb screw lid to ensure excellent sealing.
- Easily assemble pump basket.
- Pumps baskets size to allow twice normal dirt-load before cleaning.
- High performance to ensure maximum turnover rate of water.
- Improved suction characteristics to ensure maximum efficiency from automatic sweeper.
- Lid designed to eliminate suction leak and to allow positive checking of lid seal under load.
- Lp55 waterproof standard.
- Designed for easy maintenance and repairs.
- Low cost of spare parts.

Swimming Pool Sand Filter

PRODUCT DETAILS :

Valve Size	1
Brand	Epico
No of Filter positions	6
Vessel Material	Bobbin Wound Fiberglass
Screw Material	Stainless steel

DESCRIPTION :

The **Top Mount Sand Filter** is used along with the Epico's Multiport valve. Epico's fiberglass sand filters are constructed by the latest engineering technology. The fiberglass winding design allows the filters to have extra strength and resistance to chemicals and corrosives.

Water is pushed through a bed of filter sand and removed through a set of lateral tubes at the bottom. The filter area of a sand filter is equal to the area of the filter itself. Our multiport valves are designed for maximum performance and working pressure. Available in 1, ½ and 2 inches for top mount and side mount models.

Multiport valve (six positions):

Filter (normal filtration and vacuuming).

Backwash (cleaning filter by reversing the flow).

Rinse (use flush dirt from valve).

Waste (vacuums waste or lowers water level).

Recirculate (by-passes filter for circulating water)

Closed (shuts off all flow to filter or pool).

Features:-

- 100% water leak, pressure, and functional factory tested
- Durable lever action handle
- Wear-resistant rotar
- 6 positions, positive –lock operation provides access to a full range of filtration
- Side glass included (mpvs)
- SS316 spring & screw, non-corrosive salt water
- Oil pressure gauge included
- 3x unions offered in imperials or metric standard
- Low Cost of Spare Parts
- One year warranty (except the consuming parts)

Swimming Pool Underwater Light

PRODUCT DETAILS :

Material	FRP
Shape	Round
Brand	Epico
Thread Size	1/8, 1/4, 3/4 Inch
Usage	Pool Cleaning
Color	White

DESCRIPTION :

Water halogens are placed in the swimming pools because it acts like an oxidizing agent in the water. We import these products as it gives the ability to oxidize water. We distribute these products for safety use. All the products we import are done with the specifications given by our customers. These products are designed based on the requirements of the customers. All the products are available in various sizes with cost efficient prices.

Taking quality as our prime concern, we are engaged in offering Section Drain Lock Nut to the customers. Backed by a team of experts, these are processed using optimum quality material and advance technology. Furthermore, this Section Drain Lock Nut is availed in various specifications, as per the varied needs of our valuable clients. Our entire products are known for their dimensional accuracy and flawless finishing.

Features:

- Dimensional accurate
- Reasonable prices
- Superior performance
- Brand Austin
- Size Standard
- Quantity Per Pack As per client need

Swimming Pool Starting Block

PRODUCT DETAILS :

Warranty	1 Year
Usage/Application	Swimming Pool
Brand	Epico
Finish	Matte
Color	Blue
Material	Acrylic

DESCRIPTION :

Backed by rich experience in the field of swimming pool products, we also offer our customers precision engineered range of minder starting blocks. Featuring quality finish as per international standards, these starting blocks match up with the specific requirements of swimming competition held in pools. Further, the use of high grade materials in its manufacturing also ensures that these starter blocks are durable.

Swimming Pool Racing Lane

PRODUCT DETAILS :

Length 25cm,50cm

Color Red, white, blue ,yellow, green and purple

Brand Epico

Material ABS

Diameter 11cm, 12cm, 15cm

DESCRIPTION :

Pool Racing Line consists of a series of - mm polyethylene discs. It can absorb wave energy along the channel within the lane that's why it is called anti-wave racing lane available in standard colors like red, white, blue ,yellow, green and purple. The rope used is totally water resistant the hooks are provided on both the ends.

Epico's premium racing lane design allows the turbulence to be dispersed along the length of the lane, creating the optimum environment for the fastest competitive swim times. Each racing lane line consists of a series of 4 inch polyethylene disks and donuts strung on stainless steel/poly-propylene cable. Each of these disks is designed to rotate independently of the others, thereby allowing the wave energy to be absorbed and dispersed along the channel within the lane. Epico's lanes comes with a rope tighter on one end to allow for customized adjustment of lane torque and a stainless steel spring assembly on the other end to maintain equal pressure during use.

Swimming Pool Pipeless Filter

PRODUCT DETAILS :

Usage/Application	Industrial
Voltage	220 V
Flow Rate	25000 lph , 35000 lph , 50000 lph
Automation Grade	Automatic
Frequency	50 Hz
Material	Fiber Glass

DESCRIPTION :

We import and distribute Pipe fewer filters have all the items used into swimming pool. It has inbuilt three step ladder, 12v/100w light, integrated inlet skimmer and outlet nozzles along with circulation pump water filter, floor cleaner and optional water heater. It saves the cost of plumbing, over flow channel, filter room. This machine uses 1 hp electrical motor for the pool of 90 cum, saves 100% treated swimming pool water and consume 70% less chlorine. Advantages of pool Pipe less filter are made up of fiber glass which is very strong and repairable, patent design and go into pool 200mm as compared to other 400mm into pool, Looks good and available in any color of designs.

We are counted among the recognized firms engaged in offering a superior quality range of Pipeless Filters. These filters are procured from the authentic and certified vendors of the market, who manufacture the entire range using high-grade raw material and latest technology. Further, the filters offered by us are tested on various parameters so as to ensure their hassle-free performance and longer functional life.

Features:

- Reliable performance
- Durability
- High functionality

Swimming Pool Ladder

PRODUCT DETAILS :

Brand Epico

Size 38mm Dia , Standard

Color Silver

DESCRIPTION :

Our Swimming Pool Ladders are fitted on Swimming Pools to ensure easy and safe access to the Swimming Pool. Made up of SS304 , comes with 2steps , 3 steps, 4 steps or 5 steps. The Steps are available in SS304 or Plastic. The steps can be replaced with new ones. Ladders available for Skimmer type Swimming Pools, Overflow type Swimming Pools and designers ladders available for Skimmer Type Swimming Pools.

Advantages

SS304 – Corrosion Proof

Folding type ladder

Comes with all required accessories

Various Sizes and Types for different Swimming Pools

Specifications

Brand- PW / Epico

MOC – SS304

Pipe Dia – 38mm

Swimming Pool Counter Current System

PRODUCT DETAILS :

Power Source	Electric
Voltage	220 V
Frequency	50 Hz
Brand	Epico
Material	Stainless Steel, Plastic
Motor Pump	3HP or 5.5HP

DESCRIPTION :

Because of its modular design, it can be installed indoors in existing spaces. The modular design also allows for pools of varying sizes from 7' x 12' to 10' x 16' with water depths up to 6' deep. We import and distribute swimming pool Counter current which is designed to fit just about anywhere indoors or outdoors. Pressure driven machines are the most commonly used pump to create a jet of water, whereas volume driven machines depends on a paddle to generate the current. The installation of these into an existing pool is not straight forward as pipe work has to be put through the side of the pool. Typically these pipes are 75mm in diameter. Swimming pool counter current are considered to be the best overall health fitness and enjoyment activity.

Virtually convert your pool length to infinity with our counter current. Install Potent's Counter Current units to enjoy as if you own a large swimming pool in your backyard or at your terrace .It makes you swim the whole day without touching the wall. This jet stream is ready for easy installation. It is possible to regulate the jet strength and air suction on the nozzle of 40mm in diameter which is directionally adjustable. The nozzle, suction and pneumatic switch are positioned in the front cover panel of the equipment.

Complete counterflow swimming system includes:

- Counterflow nozzle 40mm (regulation water - air)
- Front cover panel with an attractive design
- pool wall lead-through
- Pump
- Electro pneumatic switch with safety element Motor
- Asynchronous, two poles
- IP 55 protection
- Class F insulation
- Continuous operation Materials:
- Suction and discharge mounting in polypropylene
- Motor shaft in stainless steel AISI-304
- Impeller in polypropylene
- Mechanical seal in graphite and steatite
- Motor housing in aluminum L-2521
- Windings impregnated with epoxy resin

Robot Pool Cleaner

PRODUCT DETAILS :

Automatic Grade	Automatic
Usage/Application	Pool Cleaner
Brand	Epico
Material	Plastic
Voltage	24 V
Frequency	50 Hz

DESCRIPTION :

We are supplier & distributor of high-quality Robotic Swimming Pool Automatic Cleaners. These are manufactured with the latest technology and high-grade raw material to provide good working life. The robotic pool cleaner is a must requirement for all kinds of the pool including domestic or commercial pools. In a short period of time, the robotic pool cleaner can vacuum clean and filter the entire pool floor walls and water line. The pool cleaner comes with a wireless remote control for easy operation.

It is not attached to the pool's main filtering system and so does not need hoses and this prolongs the filter's life. It has an internal 2-micron filtering system that removes leaves, acorns, pine needles, sand, silt, algae, and bacteria, reducing back washing immerse the robotic pool cleaner in the water and turn it on.

Features:

- Australian Technology
- Climbs walls – cleans the water line
- Scrubs vacuums & filters the pool in only in 3 hours
- Large 50-micron filter bag collects dirt, debris and dust particles
- Small, lightweight & easy to handle
- Equipped with caddy for handling and storage
- Independent unit –no pre-installation needed
- Includes the power supply box and trolley with operating panel
- Automatically removes the dust of the floor and walls of your pool
- Electronic series Robot 24VDC with 20-30m cable.

Pool Suction Sweeper

PRODUCT DETAILS :

Power Source Electricity

Brand Epico

Trolley Material SS, MS

Pump Power 1, 1.5, 2 HP

DESCRIPTION :

They are used to carrying out suction sweeping of water. They are available in various sizes and dimensions according to the requirements of the clients. They are fabricated using high-quality materials. They are made according to the specifications of the clients. It is user-friendly. It is resistant to corrosion. It provides excellent service to the customers.

Swimming Pool Heat Pump

PRODUCT DETAILS :

Material	SS
Brand	Epico
Frequency	50 Hz
Power	1394-10.1 Watt
Voltage	230-380 V
Heater Material	Titanium

DESCRIPTION :

We import Swimming Pool Heating System with cost effective application of solar energy. Unglazed collectors which are the simplest and least expensive of all collectors are used for heating outdoor pools. Solar water heaters are integrated into the normal pool pump/filter system and work by intercepting the water flow after it comes out of the regular pool filter. The temperature of the water is raised significantly as it passes through the collector. When no heat is needed, a diverting valve is activated and the solar collectors are avoided - in that case the water flows directly back to the pool after filtration.

We are the leading supplier and distributor of Swimming Pool Heat Pumps in India. These are not only the most efficient but also economical pool heat pumps available in the market. They help in maintaining a comfortable soothing temperature all around the year. These also allow maximizing usage and utilization of pool. These Heat Pumps require a small amount of energy to operate the compressor and fan motor and hence effectively reduce energy bills. In reality, our heat pumps produce up to 5 times more heat energy than the electricity consumed by them. Pool heat pumps can be widely installed in any kind swimming pool, spa, hot water for homes and many other places. Swimming Pool Heat Pumps work best with Epico Pools Solar Pool Covers.

Features:

- Long operating life
- titanium heat exchanger
- Economical and high-efficiency
- Bright design, easy installation, and replacement
- Compact and sleek unit
- Pump and flow switch included
- Japanese Compressors
- Advanced electronic controlling
- Smart computer control and LCD display controller make
- Multi-protection
- Multi protections to protect from water temperature compressor exhaust pressure, compressor temperature, evaporator temperature and so on
- Galvanized powder coated steel cabinet
- Titanium heat exchanger in PVC shell
- Bluetec coated hydrophilic evaporator
- Intelligent digital indicator controller
- Precise temperature control to 1 degree
- Multi-functional optional parts
- Eco-friendly gas
- Lower noise level

Swimming Pool Construction

PRODUCT DETAILS :

Area	Customized
Brand	Epico
Shape	Depend on requirement
Material Procurement	Customer End
Location Type	Commercial
Height	4 - 10 feet

We provide the ideas for swimming pool construction and also provide all the equipment and filters used in these pools.

Swimming Pool Cover

PRODUCT DETAILS :

Color Blue or Black

Brand Epico

Material Plastic

Thickness 600 Micron

Shape Square

Pattern Plain

DESCRIPTION :

Swimming Pool Covers provides complete safety to the swimming pools from external pollutants. These pool covers are provided in multiple styles at varied price range. These Swimming pool covers not only keep the water clean and also by keeping out leaves, dirt and other debris & also protect the pool from animal & insects. As these covers protect the pool from external pollutants, the chemical required disinfect to clean these pools are used lesser which gives rise to a healthy & chemical free pool. We import wide range of products for our clients.

We supply quality thermal Swimming Pool covers that transfer Sun's heat to Swimming Pool Water and thus retain the heat of Swimming pool. The cover is made from 5 layers that help in efficiently retaining pool's heat. The thin cover floats on water and can be customized as per the size and shape of your pool.

Features:

- Reduces heat loss & Increase temperature
- Heat welded to any size and shape
- Grommet punching and Winch available
- Durable, Waterproof and Tear Resistant
- Save water, chemicals and cleaning time
- Ultra lightweight and easy to handle

It also performs the functions of a regular pool cover:

- Prevents evaporation
- Prevents chemical loss
- Retains pool heat
- Keeps Pool clean
- Save money
- Save energy
- Make pool safer
- Easy to use
- Beautify and modernize your pool

Pool LED Lights

PRODUCT DETAILS :

Voltage	12 V
Wattage	30 W
Brand	Epico
Body Material	Stainless Steel
Shape	Round
Lighting Type	LED

We are the leading manufacturer, supplier and exporter of Swimming Pool LED Lights. These are manufactured from state of the art technology and high grader raw material. These offer durability, long life and are supplied at competitive rates.

Plot No.169, 170, Pocket-10, Sector-24, Rohini, Near Modak Sweet, Delhi - 110085, India
